## REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

301-415

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 4,697,281 granted September 29, 1987 and for which a reissue patent is sought on the invention entitled \_\_\_\_\_Cellular Telephone Data Communication System and Method

the specification of which

☐ is attached hereto.☒ was filed on April 17, 2001 as reissue application number 09/835,464  
and was amended on July 24, 2002; November 15, 2002 and August 20, 2003  
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verify believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

Applicant failed to claim a vehicular wireless voice and data communication system including a cellular transceiver mounted in a vehicle combined with a computing device as described in claim 31. This is a broadening reissue because claim 31 is directed to vehicular aspects of the original invention without including all the limitations of at least one claim issued in US 4,697,281; Re 34,034 and Re 37,141 of which this application is a reissue and a divisional reissue.
